

15-Jan-2021_never comfortable simply existing

More from the "Seeds of David": The spirit of the wind; the moving of the spirit and stirring up of God's gifts within you.

We make sure you are never comfortable just getting by, just living, just simply existing. Some people might call the aids we might use "problems that need solutions". There's nothing like a problem to get a person to seek for help. And for you who know where to get it, then this brings you right to the feet of Jesus to learn of Him.

And then He aids you; He gives you the tools to do the job of fixing whatever it is. These are called "gifts" and "talents". So you use these to do whatever He said to do. This is called, "Obedience" and "using the gifts of God".

Like Timothy of old was to use the gift God gave him. And it's not always peaches and cream, for you usually are mocked, in some way, like he endured. But he had to keep going, no matter what people thought.

He had a calling to live up to, he had the tools to do the job, and yes, there certainly were problems that needed fixing. This is what stirred him on to do all he could to walk in God's anointing and try to make a difference. He wasn't just "getting by"; none of them were. Or how could it be said that they "turned the world upside down"?

They were alive, as in the Spirit of God breathed through their very life; they weren't simply living. That doesn't mean they were without down times, times of rest, or being out of commission for a time. But remember that being alive in the Spirit isn't only about what works you are doing, but the faith side of it too. How much of God's Spirit are you breathing in today, no matter what you are doing—or are unable to do? That's being alive.
