

## 15-Jan-2021\_the ornament of peace and serenity

More from the "Seeds of David": Peace and Serenity

(Jesus speaking: ) Peace and serenity are a pair you'll want to wear. It's like putting on a meek and humble and quiet spirit. Put on these lovely ornaments, and you'll open doors that were closed to others before. Some people just can't stand the sight of war, and so when My troupes storm in to try to win a victory in their neighbourhood, it frightens them away, like scared pigeons when a cat comes.

So the thing to put on is the ornament, the spirit, of peace and serenity. This doesn't mean that there still isn't a war going on, and in fact you wouldn't be there out to reach the lost if they were in absolutely no grave danger. Or why would you be risking your life to save theirs? But as one of the battle tactics you come in peaceably, showing the peaceable fruits of righteousness. You are easy to be entreated. And then you slip your way in, and slip your arms around them and with gentleness help them to get free from the shackles that are binding them.

The battle is raging in your heart and mind, for you are fighting the enemy tooth and nail, yet the spirit you carry, the air of your presence is calm and inviting. To be this when this is the winning way, ask for the Keys of Peace and Serenity to adorn you, and you will appear inviting and be welcomed into hearts and homes and houses of the ones who need a calmer approach. You don't bring up topics that ruffle their nerves or that make them fearful, but you bring in the pleasant side and woo them in this way.

Be all things for all men, in order to win some.
