More from the "Seeds of David": Faithful (selected)

The fight of your faith has been fierce. I know you feel you don't always know what end is up, or what you are to say and to whom and when. You do feel rather alone in your personal fight.

If you keep hearing Him saying this and that, and He says it often enough, if nothing else it will be worked in to the fibres of your soul by mere repetition, the constant pounding on the pavement of your mind. Truths will be worked in and become one with your nature the more you hear it.

Your shield of faith pounded out of the gold of God's Word, by hearing it repeated in one way or another.
