

28-Nov-2021_refighting adds patience

(Jesus speaking:) This year will be unlike most years of your life, perhaps more like a collogue of this and that time in your life. Because those very times you went through were to train you for a battle of that sort later on in life.

I know you don't have it in you to fight the fight of faith, for you are just a man and the hordes of satan are many and fierce. See, the consequences of them not winning are very dire; deadly really. So that is why they fight hard and long in order to win back any territory it seems they have lost.

They are fighting a losing battle, of course. But it can be very wearisome to My fighters to have to fight and refight in some area that they thought they won in. That is because they, don't give up easily.

So it will try your patience to the limit. But "add patience".

2PE.1:2 Grace and peace be multiplied unto you through the knowledge of God, and of Jesus our Lord,

2PE.1:3 According as his divine power hath given unto us all things that pertain unto life and godliness, through the knowledge of him that hath called us to glory and virtue:

2PE.1:4 Whereby are given unto us exceeding great and precious promises: that by these ye might be partakers of the divine nature, having escaped the corruption that is in the world through lust.

2PE.1:5 And beside this, giving all diligence, add to your faith virtue; and to virtue knowledge;

2PE.1:6 And to knowledge temperance; and to temperance patience; and to patience godliness;

2PE.1:7 And to godliness brotherly kindness; and to brotherly kindness charity.

2PE.1:8 For if these things be in you, and abound, they make you that ye shall neither be barren nor unfruitful in the knowledge of our Lord Jesus Christ.

(Message continues:) You want to know how to win the war for Me this year? Just listen, and listen some more. No soldier can ever hope to be on the winning side unless they have both enlisted to fight in the heat of the battle, and are taking their orders from the top—who has planned the winning moves since the start of the "battle for the Earth". But you have to listen or you aren't going to know how to win in that particular situation or battle.

And then you need to rest also, take time to rest and to be refilled, or you aren't going to have the stamina to fight on for the long haul, and it will seem like there are more losses than wins.

You have to wax more valiant by the day as the attacks are upped daily by the opposing team. Keep looking to Me daily for the way to win the particular battles that face you that day. And by "win" I mean that what you do ends up, at the end of the day or the project, to be a plus, without a lot of minuses and drawbacks and wounds and set backs, or worse yet, that it seems worse than if you had never tackled the problem or done that task for Me. You want to come out a victor, most of the time at least, for having done this or that that I called you to do.
