(Jesus speaking:) I get just as much of a thrill out of fighting the battles with My warrior men as I do enjoying tender or wild revelling in the bed of passions with a woman.

I passionately enjoy engaging in hearty discussion and intricate plans and war tactics, or solutions to this world's challenges, with the angels and men that I talk with, as I do watching the thrills of a woman dancing for My pleasure in free abandon, with a "come and get it" look.

Both are deeply fulfilling and truly engaging for Me, and I love you for engaging with Me in these heart-gripping activities. For they grab all of our hearts and unite them and make us one in purpose and goal. One in mind, and one in engaging in enacting the plans of God. I love it all. I don't love one more than the other. Either way, the soul is giving me their full attention and loyalty, and truly desiring to please Me.
