

4-OCT-2020_you can't skip out on tests of faith

(Jesus speaking:) Learning faith through physical circumstances or spiritual tests, one way or the other, you are going to be tested and grow in the area of faith. You can't skip out on faith tests, just because or when you use the New Weapons; it just changes how you learn.

For example, faith to use the Keys might have rid you all of this sickness, and made it not spread. Your faith would have grown. But now you are learning a more practical lesson of faith, through not feeling well and you are tested in the physical.

The power of Heaven doesn't make you skip grades, but makes you zoom through your lessons to funner ones rather than taking a long time learning the basics.

Your mother had lots of physical pain tests, this caused her to reach out for My help through the greater power offered. And now she gets to see My power in action in ways that boosts her faith, tests of her faith given along with extra learning tools of miracles seen before her eyes.

Her jobs get done faster and this is personally fulfilling. The more you do for Me, the more I can reward you for.

So you can't get out of faith tests—they are the road you travel on. But you can choose the way you travel, what transportation you choose to take. Coach and buggy, or fast train? Walking or running? But since time is important—that you work the works quickly; best to take the fastest means of transport. It might cost more than walking on your own two feet, but you'll get more done for My cause. And you'll be more than repaid.
