

4-Oct-2021_the torch of the Word of God

(Jesus speaking:) The night is going to get darker and more unusual things will occur. But hold to the torch of the Word of God and you'll navigate through and around and over to the place you are meant to be.

Do read [My messages] these will be your torch and help you make it to the shore of the island you are meant to reach. It's not easy being alone, but with My Word you are not alone. Keep looking to what I have said, and what I wish to say. If you focus on this it will light you home.
