

6-Jan-2021_make fast headway

(Spirit helper speaking:) I'm going to come into you hard and fast and get you going. It's going to make you move briskly along. It won't take long for you to figure out that you are in a serious war when you see what's going on. You might be slightly dizzy, but then you'll realise it's time to fast find your footing and get moving. The ground is burning hot and you best be moving so you don't melt right into it, like sinking into the lava of a volcano under your feet. Fly and go and move, now. Hot will be the tests, but move up closer with Jesus. Move swifter and make fast headway.

(Question: *What does this mean I am to do, when I feel the heat? How do I "move" how do I "get up closer?"*)

When you are close to Jesus you hear Him speaking. Always realise this means to listen. For unless you are doing so, you are going to crash. Keep your pilot's headset on and take your cues. If you aren't going to listen hard and type fast in peace times, then the heat needs to be turned up. Time is ticking and the job must be done. Don't linger now. There's a race to be won. I want my "steed", you Cheery, to be on the winning team.

Trials can test you, but they can also stop or stall you. Stop you from hearing from the Lord on completely new topics, stop you from praying for others. Trials that consume you in your self-thoughts do a lot of damage to the work of the Lord through stopping you from making headway. Up now and fight. 20 a day is not too many. Let's go.

That's what is meant by full throttle.

If you haven't done your spiritual quota, then why are you doing something else? I'll keep making things hurt when you try to do them, if they are not what is meant for you. I'm saving you time by "swatting your hand" if you try to take on something you aren't meant to be doing. Whack! Now what was it you were supposed to be touching and picking up? Back to the King's business. Like I said, time is ticking.

There are other projects in the works, but first things first need to be done, which lay the ground work for the rest. Take the steps and move with the Spirit of the Lord.

So if something hurts, then you are to "get your hands off of those goodies" okay?

I do love my job. It gets results. I'm glad to work with you. I see you braver by the day and ever fervent to follow hard.
