

7-Dec-2020_wise to be quiet

(Spirit helper speaking:) We tried to get through to you last night, but your mind was somewhere else.

So we are placing the call again. Will you pick up?

Hello.

It's important that you are very prayerful in your words and actions, as the enemy seeks to gain an entrance into any crack he can find.

Watch and pray; and pray before you say. Hold that tongue when it's not meant to move.

There's lots going on these days, and you must be very vigilant--not only for your own good, but for those you might accidentally nick with the sword of your tongue.

Be wise. You are walking on a tight rope so to speak. Keep quiet for that is the wisest move to make at this point in time.
