

7-Jan-2021_blue elixir

(Spirit helper speaking:) Step into my study. I've got all kinds of things to show and teach you. Are you eager to learn? Well, here we go. First, I'll show you that it's not book learning we'll be doing, but hands-on practical lessons.

I have here a little bottle of blue liquid, when this gets on you, there is a bit of a reaction. Let's see what happens when I pour a drop of it on to your hands. Rub, rub. Rub it in. That's right. Now what can your hands do? Or rather, what can't they do?

Now, whatever you touch gets changed for the better. This is like the power of God. You take it in, but not just in your head. You do what? You apply it. That's what apply actually means, in this sense. You put it on in order for it to benefit you or others.

So the power of God is now going to go to work.

Whatever you do, will now be done in the might and power of the Elixir of heaven. This power can heal and restore and give life, and so much more.

Well, since you don't have a little blue bottle there on your shelf, and you have nothing but water washing on your hands for the most part, you know that it's gotta be in the spiritual. That doesn't mean that it isn't real, but that you can't see it and taste it with your normal body. That's like saying to a blind person that something is blue or red or whatever. Well, in some ways those colours don't exist to him, because he can't see them. But that shirt he is wearing is really the colour it is. But with his eyes it can't be seen. So with your eyes there, somethings aren't perceived.

Just reach out your hands when you need a miracle boost, and say "Elixir of Heaven, please". And your blue angel, who helps to transmit the power of God to you, Heaven's most potent power of all, will light you up. Light you? "I thought it was a fluid? How is it going to be lit or light?"

Ah, but it's flammable, and oil and fire go together. Miracles come with the oil and fire of God's Spirit. Getting oiled up means you are wishing to burn and shine your light.

So, want to shine? You need the oil and fire of God, and the transmitter to pass it on.

When God's ultra power touches something, it always changes it in some way, and it's always for the better.

So think of this when you are laying your hands on a loved one, or a pet, or a person who needs healing, or your vehicle, or even the food you are preparing or about to eat. Let God's power of Heaven come to you and come through, through your fiery, Elixir filled hands. The power of God will work to do good to all you touch.

Ask for God's empowering Elixir to touch all that you do, and anoint all that you do; all that you use your hands for. It's not you doing it, but the Spirit of the Holy, the Holy Spirit, God's Spirit coming on you and working through you to change the world around you for the better.
