

7-Jan-2021_wildly flowing sap

(Spirit helper speaking:) We are loving this wild love! Thanks for letting us into you, again and again. The fruit needs the sap to grow, or the vine can't bear fruit. So letting this sap into you so freely and abundantly means growth and new developments can come about. Now, you may not see it or get to taste the sweet juicy fruit from your times of letting God's sap flow. But maybe it is so that you can drink wine together with Him in His Kingdom. Won't that be a lot of fun! We all are looking forward to that day.

Keep letting the sap flow from Heaven freely, and all the branches are going to perk up, and the shrivelled fruit will fill up and take shape and be ready for harvesting. Each one must do their part. You are down now, tucked away and don't see all that is happening. But don't stop letting it flow, or some fruit won't come to fruition and fullness of shape, wet and ready, delicious and desirable, ready to be made into new wine, ready to delight the hearts of all.
