

7-sept-2020_let God's Spirit wash and refresh you

(Note: My lips were too dry, continually, to be able to smile for a few weeks.)

(Jesus speaking:) I took away your smile, for so was Mine gone as well. For I can only smile when you are well, and drinking from the right well—the water of life.

It's not enough to just take in some nourishment, or even to hear the Bible as much as you do. You also need the living water, that is the new, the fresh, for it contains what you personally need. It brings the nutrients of God.

If the Bible is like food, then the living water of My fresh Words for today are like the water you need as well. You can't just have one and not the other. You need both. "The law and the prophets". The bread and the wine. The manna and the water from the rock. The rod and the staff to teach and to sustain you.

The Bible teaches you and helps you to grow and to mature. The fresh words of God's spirit given to each believer, keep them going and flowing.

The nature of water is to flow, to move, like a river or stream or waterfall flows and goes. So does new wine and new water from Heaven help you to move along, to be cleansed and to be made whole.

Why did the sickly ones have to jump into the pool to be healed, when the angel moved the water? Because it's through the refreshing words of the spirit of God that you can be made whole.

Why did I ask the blind man to wash his eyes, in order to be made whole and to see again? Because the healing is activated when the water of new words are used.

What do these stories teach you? You need to know what I want you to do—that is the Bible; then you've got to hear new words of instructions of what you personally are to do. And you are to act on it. The physical things I can use, like the clay, or the spiritual help like the angel that moved the water, all are part of helping you. But without the water, the fresh living water, and without your obedience to do what you personally are meant to do, you won't get the healing you need.

Did the man have to jump in the water? No, because I can touch you personally, if you can't get to the living water for some reason; like many can't, who are forbidden and kept away from it. I can still help them. But many did go in, and were wonderfully healed. And this was a sample to show that just the law, the written Word was only part of the way to make a healed society. The water moved with the power of God, and jumping in to take action was going to bring healing and renewal.

So if you are sick, in heart, or in body, or in mind or in spirit, or something isn't well, then check if you are:

--taking in the good hearty nourishment of the standard Word of God

--getting the special help from Heaven needed (the ointment from God, and the power of God through the helpers of God)

--and most of all, letting the new fresh water, the new words of God's spirit wash you and refresh you

--and of course taking action and obeying what God's will is for you

And like the healing for those people came at just the right time, when it would bring the best wins for the Kingdom of God, so will the healing come to you as well; when the time is right. But you have to do your part, or the whole plan will be missed. And it won't be God's fault but your own, for merely sitting by the swimming pool, getting weaker by the day, rather than jumping in and being renewed and made whole.
