

Little seeds from January and February 2021

5-JAN-2021

(Spirit helper speaking:) Grieve not the spirit of the Lord. Fulfil your election and high calling. Be wise and hold to your crown. Are you pulling down rich and new treasures, or only coasting on delights from yesteryear?

What Does God want to show and move through you now? Seek Him. He's not going to beat down your door, or always be the first one to knock. Get active, get moving, even to the hurt of your pet projects and ideal "get done's".

12-Jan-2021_he tries to make you miserable

(Jesus speaking:) Of course satan is all too eager to drive you to the ground and give you a beating for not working hard enough, fast enough. If he can't stop you from doing your Lord's will, then he tries to make you miserable doing it, and constantly picks and says you are doing it all wrong.

[Note: The solution is asking the Lord about it. The rest of the message was Jesus' mind on my specific work goals and how to get done what He wanted.]

5-FEB-2021

(Spirit helper speaking:) Any project that you are to tend to, even as simple as cooking for the children, requires "teamwork" the work of a team of spiritual assistance. What did "living together" in the old way accomplish? It gave you the idea that you aren't to be completely on your own, and that you never are. You always work in teamwork and need to be aware of heaven's team ready to assist, and doing their best.

So how do you work with the mob? Just pray to be of service to THEM, and yielded and flowing with the plans.
