slippers

(Place a "counter" or sticker on each star and count.)

4

5

1 sun

1 moon

$$1 + 1 = 2$$

God made 2 big lights!

- ❖ What is in the sky?
- ❖ What is on the Earth?

snowy mountain

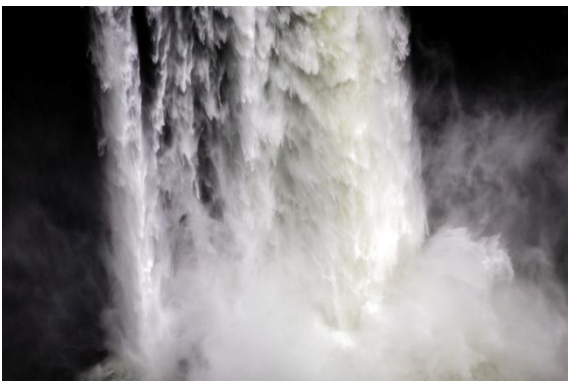

fluffy clouds

shining moon

pretty flowers

splashing waterfall

bright sun

Psalm 148:3

Praise ye him, sun and moon: praise him, all ye stars of light.

Make paper sun and moon and star shaped stick puppets, or face masks with paper plates.

Sing this verse to the tune of "Twinkle little star."

Put a sticker here, when you know the verse!

The Earth, the sun, the planets, the moon, and the stars are round—they are shaped like a sphere.

- Can you find any balls, toys, or food that is shaped like a sphere? Gather them, and create a model of the planets all around the sun in the middle. Place a small white ball of tissue or foil for the moon beside the Earth ball.

Can you draw lots of circles, for the things God made in the universe?
