

Isaiah 2:5 Come ye,

and let us walk

in the light of

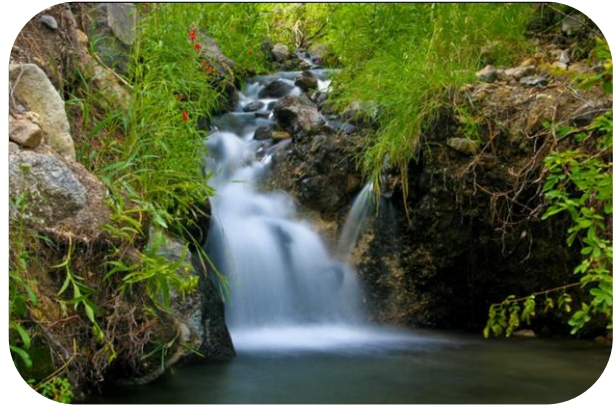

the Lord.

Put sticker here

When you know it, and wrote it!

atmosphere (the air surrounding the earth to a height of 1,000 km)

vegetation (plant life)

greenery (green vegetation)

orchard (an area of land with fruit trees)

contribute (to give or provide)

Figure it out!

If a man had an orchard with **21 fruit trees**, and **1/3** of them bore peaches, and the other **2/3rds** were citric trees (*oranges, tangerines, grapefruit and lemons*), and from **each** of the citric trees he picked **4 baskets** full of fruit a year—how many baskets of citric fruit did his orchard bear each year?

(**Tip:** Divide 21 by 3, take that answer and times it by two for the 2 thirds, then times that number by 4, for each of the baskets.)

$$21 \div 3 =$$

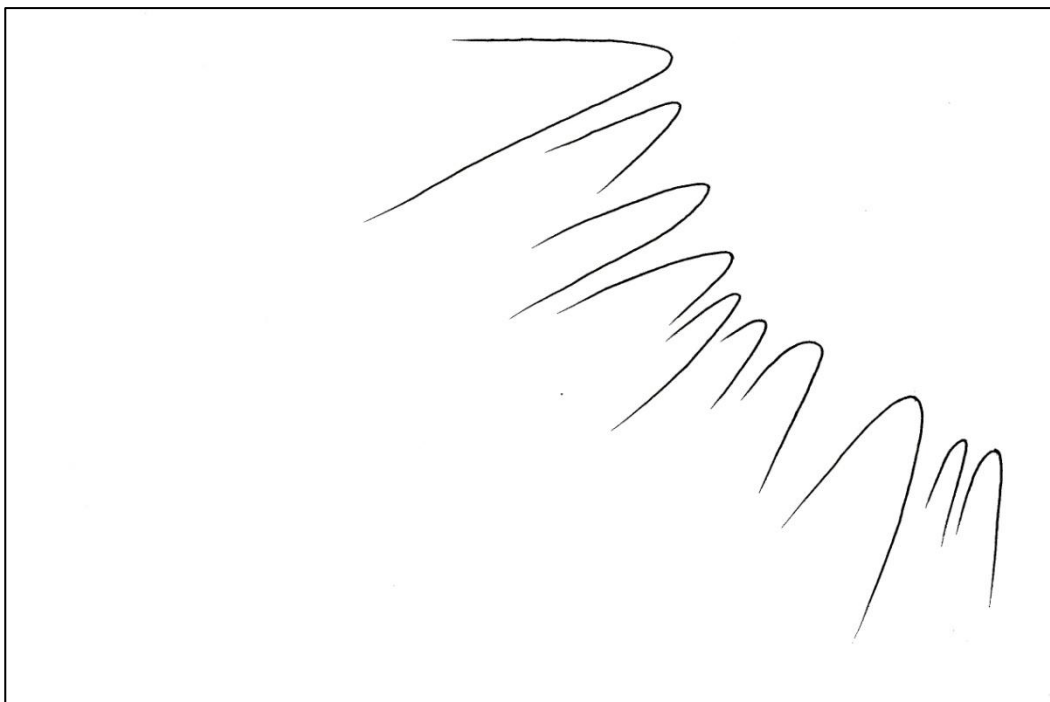

$$\times 2 =$$

$$\times 4 =$$

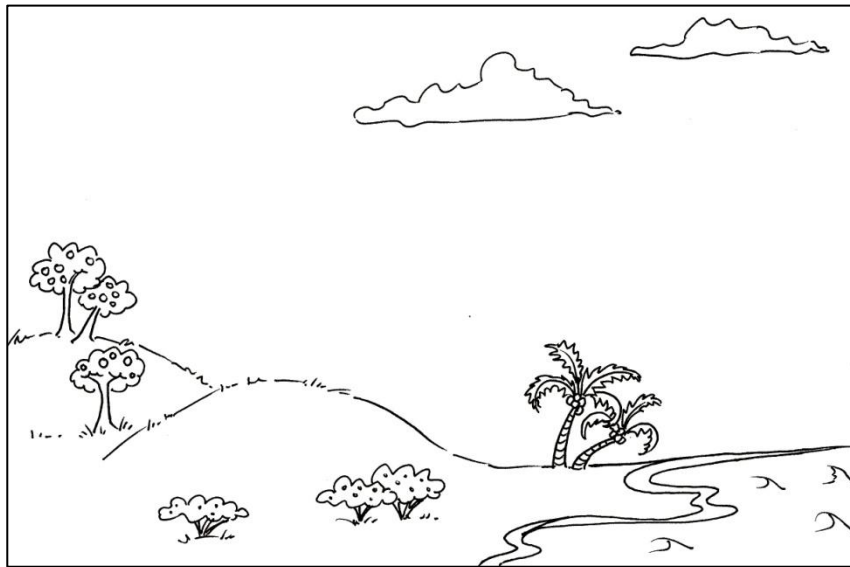

Read the story.
Add colour and

you'd like to
draw in the
pictures.

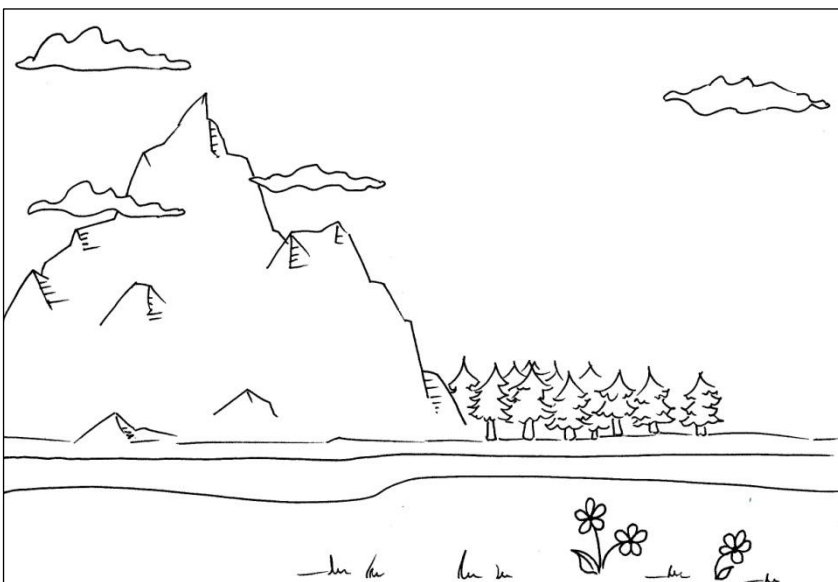

God created the Earth and all the
beautiful places in it.

First He created the light.
“Let there be light”,
He said, and then there was light!

Next God spoke and created the sky and air around the world. He separated the water, leaving some below on the Earth, and placing some way up above.

Then it was time for the land to be formed.

After that, God filled the world with many pretty

things, like plants, fruit, food to eat, grass, trees, beaches, rocky mountains and flower-filled meadows. It was a lovely place!

Plants need:

- Light
- Water
- Nutrients & minerals
- Something to breathe
- Room to grow and a place to live.

*Did God provide all these for the plants, before He made them? Retell the order of events.

*How do plants help to provide some of these things for people? (food, oxygen, materials for making houses)

*Say all the types of plants you can think of (flowers, trees, etc.)

-tion (say "shun")

❖ Read the words and notice the *-tion's*.

❖ Clap the syllables, marked in different colours.
